Women's Health

About Women's Health

Women's Health provides the forum commentary and analysis of those diseases and conditions that are of critical importance to women for an audience of clinicians, research scientists, decision-makers and a range of professionals in the healthcare community.

The journal covers:

- Leading Reviews on current and emerging topics relating to the safe and effective management of therapy in women
- An important forum for commentary and analysis on those diseases and conditions that are of critical importance to women
- Editorials, Drug evaluations, Clinical trial reports and Priority paper evaluations, all written and assessed by specialists in women's health
- Coverage expanding beyond women-specific conditions, such as reproductive health and breast/ovarian cancer, to embrace the unique pathophysiology of disease in women and corresponding effect on treatment
